

AnxioCalm®

Relief of Occasional: Anxiety, Stress, Nervous Tension, and Restless Sleep*

SUPPLEMENT FACTS	
Serving Size: 2 Tablets	
Servings Per Container: 22	
Amount Per 2 Tablets:	%DV
Narrow-leaved Coneflower 40 mg	**
<i>(Echinacea angustifolia)</i> Root Extract (EP107) standardized for proprietary echinacosides and a unique alkamide profile	
** Daily Value (DV) not established	

Other Ingredients: cellulose powder, lactose (milk), aqueous film coating (hypromellose, titanium dioxide, polydextrose, talc, maltodextrin, medium chain triglycerides), croscarmellose sodium, vegetable source magnesium stearate, silica.

No salt, yeast, wheat, gluten, corn, soy, artificial coloring, artificial flavoring, or artificial preservatives.

Recommendations:

Adults: 1 or 2 tablets twice daily.
 May take at bedtime to support restful sleep.*
 Children (ages 4-12): 1 tablet twice daily.
 May increase as directed by your healthcare practitioner.

If pregnant or nursing, consult a healthcare practitioner before using.

Product of Hungary

Developed by Researchers at the Hungarian Academy of Sciences.

U.S. Patent #8,206,762

NON-GMO

- Relieves occasional anxiety, stress, and nervous tension
- Enhances restful sleep
- Promotes mental health and emotional well-being
- Newly discovered echinacosides support healthy brain chemistry*

Clinically Tested

AnxioCalm has been well studied. Containing a specialized plant extract standardized to unique compounds, AnxioCalm has been compared to other anxiety-relieving substances. It not only met *or exceeded* the effects of the compared substances, **it did not cause drowsiness** – a common effect of many other approaches.

AnxioCalm was tested with volunteers experiencing increased stress and nervous tension. A standardized questionnaire was used to measure their feelings of anxiety before using AnxioCalm, and compared their responses on 1, 3, and 7 days after taking the specialized extract.

After only 1 day of use, the participants experienced a significant reduction of occasional anxiety; the effects of AnxioCalm continued to increase through day 7 of use.*

In another published clinical trial, AnxioCalm showed statistically **significant effects after only 3 days of use.**

What Makes AnxioCalm Different?

Plants can be of the same species, yet yield different compounds and provide different benefits. For example, there’s always been echinacea for the immune system. Now, there’s echinacea for the brain. Soil, climate, sun, and many factors work together to alter the chemistry of a plant.

AnxioCalm provides a unique, clinically studied echinacea, EP107. Its brain-specific alkamides are able to safely bind to brain receptors that trigger feelings of calm and relaxation.*

Frequently Asked Questions for AnxioCalm®:

Q. Isn't echinacea for the immune system?

A. It's true that echinacea is usually known for immune support. And, even though millions of people use echinacea for this purpose, the effects of relief of occasional anxiety haven't previously been reported. However, one specific species, *Echinacea angustifolia* (EP107), grown in controlled conditions and processed using special extraction procedures, produces the amount of plant compounds that reduce occasional anxiety, stress, and nervous tension when taken at the recommended dosage.*

Q. What makes this ingredient different?

A. The *Echinacea angustifolia* (EP107) extract in **AnxioCalm** is different than other echinacea extracts. It has been specially prepared and is clinically studied to show relief of occasional anxiety.* Both the ingredient and the extract have key attributes that set them apart:

- Plants are grown in rural areas, away from industry and pollution
- Non-GMO
- No synthetic pesticides or herbicides
- Proprietary alkamides
- Plants are harvested and washed by hand, and dry naturally
- Gentle, hexane-free extraction process
- Independent testing confirms purity and absence of heavy metals, pesticides and microorganisms

Q. The dosage seems low to me? Why not simply take more?

A. In scientific and clinical testing, this specific dosage showed the greatest benefit. For best results, follow the dosage instructions on the product carton.*

What to pair with AnxioCalm®:

- **EurOmega**® – Provides a safe and convenient form of whole food Omega-3s from salmon that are bound to phospholipids – the way nature intended.*
