

# BosPro™

## Advanced Boswellia • Healthy Inflammation Response\*†

Boswellia, also known as frankincense, has been a vital component of Ayurvedic medicine for thousands of years. Modern research has confirmed the effectiveness of boswellia for supporting a healthy inflammation response.\*†

- Features clinically studied, uniquely standardized BOS-10™/BosPure® boswellia
- Up to 10 times more AKBA than unstandardized boswellia – no spiking to increase this beneficial compound
- Purified to reduce undesirable beta-boswellic acid (BBA) content

**Recommendations:** 1 softgel daily, or as recommended by your healthcare practitioner. If pregnant or nursing, consult a healthcare practitioner before use.

† Occasional inflammation due to exercise or overuse

Boswellia (*Boswellia serrata*) is well-known for its ability to support the respiratory system.\* **BosPro** can help. It provides 500 mg of uniquely standardized boswellia, the clinically researched form used in studies around the world.

BosPro contains a high-AKBA (acetyl-11-keto-beta-boswellic acid) form of boswellia. It's different from other boswellia extracts, which can have as little as 1% of this beneficial compound. It is also purified to screen out beta-boswellic acid to less than 5%, as this compound can actually promote inflammation. It is a truly effective choice.

Featuring this strong boswellia extract means that **BosPro** provides much-needed support with *no serious side effect concerns*.\*

- Features clinically studied, uniquely standardized (BOS-10™/BosPure®) boswellia
- Extra Strength for advanced support; *up to 10 times more AKBA than unstandardized boswellia*
- Purified to reduce undesirable beta-boswellic acid (BBA) content
- Contains boswellia with high levels of naturally occurring AKBA – no spiking or artificial manipulation to increase this beneficial compound
- Ideal for bronchial support – without drowsiness or jitters
- Excellent for long-term lung support
- Promotes cellular health\*

## Frequently Asked Questions for BosPro™:

### Q. What makes the boswellia in BosPro different from other boswellia supplements?

A. Boswellia has a number of beneficial compounds, AKBA (acetyl-11-keto-beta-boswellic acid) being one of them. In fact, it supports pathways in the body that even other strong botanicals can't. However, unstandardized boswellia can also contain beta-boswellic acid, which is not associated with optimal benefits. The boswellia in BosPro uses a unique process that ensures at least 10% AKBA, and virtually no pro-inflammatory beta-boswellic acid, so you get the benefits you need – and none of the compounds that you don't want.

### What to pair with BosPro™:

- **CuraPro®** – Delivers clinically studied curcumin combined with turmeric essential oil (turmerones) for enhanced absorption and blood retention to support healthy inflammation response.\*†

† Occasional inflammation due to exercise or overuse
