CLINICALLY STUDIED CURCUMIN WITH TURMERONES

60 Softgels

DIETARY SUPPLEMENT

SUPPLEMENT FACTS

Serving Size: 1 Softgel
 Servings Per Container: 60

Amount Per 1 Softgel:	%DV
Calories	5
Proprietary Complex	375 mg **

Curcumin (*Curcuma longa*) Rhizome Extract (BCM-95®/Curcugreen®) enhanced with turmeric essential oil and standardized for curcuminoid complex (curcumin, demethoxycurcumin and bisdemethoxycurcumin), phospholipids (from sunflower lecithin), supplying 250 mg of pure curcuminoids

** Daily Value (DV) not established.

Other Ingredients: medium chain triglycerides, gelatin, glycerin, beeswax, purified water, turmeric in sunflower oil (softgel color), silica.

No sugar, salt, yeast, wheat, gluten, corn, soy, dairy products, artificial coloring, artificial flavoring, or artificial preservatives. Color variations are normal. Grown without chemicals.

Manufactured by a cGMP compliant facility exclusively for:
EuroMedica 955 Challenger Drive Green Bay, WI 54311

• Results verified in over 85 PUBLISHED STUDIES, including over 40 HUMAN CLINICAL TRIALS

• Supports liver, brain, heart, and immune health

• Protects cells from oxidative stress and free radicals*

• High antioxidant ORAC value > 1,500,000**

• Patent-protected method using curcumin blended with turmeric essential oil containing ar-turmerone to boost absorption and enhance results

CuraPro® delivers up to 500 times more curcumin to the bloodstream than turmeric and has a sustained retention time at beneficial levels. This high-potency formula, featuring a clinically studied curcumin, yields a minimum of 250 mg of curcuminoids per softgel.

Recommendations: 1 softgel daily, or as recommended by your healthcare practitioner.

If pregnant or nursing, consult a healthcare practitioner before use.

**Based on independent lab analysis per 100 grams CuraPro curcumin

*Based on enhanced absorption of CuraPro curcumin versus equivalent weight capsule of unstandardized turmeric containing 2% curcumin.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

Supports liver, brain, heart, and immune health

Protects cells from oxidative stress and free radicals*

High antioxidant ORAC value > 1,500,000**

Patent-protected method using curcumin blended with turmeric essential oil containing ar-turmerone

The health benefits of curcumin, the active compound from the Indian spice known as turmeric, have been well documented. However, plain curcumin is also difficult for the body to absorb. The curcumin in **CuraPro** is enhanced with other ingredients to ensure better absorption.

Curcumin PLUS

CuraPro delivers beneficial turmeric essential oil containing ar-turmerone (for enhanced absorption), PLUS 250 mg of full spectrum curcumin (curcumin, demethoxycurcumin and

bisdemethoxycurcumin) in just one softgel (375 mg). Other curcumin formulas increase absorption with ingredients such as cellulose that provide no additional benefits for health, or use ingredients that health-conscious consumers want to avoid.

In fact, **CuraPro** is **better absorbed** than plain curcumin, and has a **sustained blood retention time** at significant and beneficial levels in the bloodstream.

This high-potency formula features clinically studied curcumin, and yields a minimum of 250 mg of curcuminoids per softgel.

Up to 500 Times Stronger[^]

When results matter, choose CuraPro over turmeric powder. **Turmeric powder contains as little as 2% of valuable curcumin.** Considering the high curcumin content in CuraPro plus its enhanced absorption means you would have to take up to 500 capsules of turmeric to equal one CuraPro![^]

WHAT WOULD YOU RATHER TAKE?

[^] Based on enhanced absorption of CuraPro® curcumin versus equivalent weight capsule of unstandardized turmeric containing 2% curcumin.
 **Based on independent lab analysis per 100 grams CuraPro curcumin

Frequently Asked Questions for CuraPro®

Q. How does the curcumin in CuraPro compare to turmeric products?

A. CuraPro is up to 500 times more powerful than turmeric.[^]

The most active compound in turmeric, and the one associated with most of its health benefits, is curcumin. However, turmeric contains as little as 2% curcumin, meaning many grams of turmeric (equivalent to hundreds of capsules) need to be taken to equal the amount of curcumin in one CuraPro. **CuraPro** starts with full spectrum curcuminoids (curcumin, demethoxycurcumin, and bisdemethoxycurcumin), which is then blended with turmeric essential oil (which contains beneficial compounds called turmerones that are health supportive as well) to increase its absorption.*

So not only does **CuraPro** contain more curcumin in a single softgel than any turmeric product and almost every other enhanced absorption curcumin, it is significantly better absorbed than plain curcumin and its health benefits have been proven in over 85 published studies.

Q. How is CuraPro different than Curaphen®? Can we take them both together?

A. **CuraPro** provides clinically studied, enhanced absorption curcumin and is our highest potency, all-curcumin product. **Curaphen** provides that same curcumin along with uniquely standardized boswellia, DL-phenylalanine (DLPA), and nattokinase as a combination for occasional muscle pain due to exercise or overuse.* It is perfectly fine to use them together, according to your individual preferences.

What to Pair with CuraPro®

Clinical Glutathione™

Provides patented, reduced oral glutathione for vital support.*

EurOmega-3®

Provides bioidentical omega-3 exclusively from salmon with DHA/EPA in a biologically active, phospholipid form, ensuring absorption and improved stability.
