

# ArthroMed™

Supports Joint and Spine Health, Flexibility and Comfort\*

3 67703 70196 3

**ArthroMed™** is a proprietary formula that effectively supports joint health and cartilage formation.\*

- Supports healthy cartilage structure\*
- Optimizes comfort and mobility in articular joints and spine\*
- In a scientific study, Devil's Claw extract increased hyaluronic acid synthesis in chondrocytes by 41%; hyaluronic acid is critical for joint lubrication\*

**Recommendations:** 1-2 capsules, twice daily, or as recommended by your healthcare practitioner.

If pregnant or nursing, consult a healthcare practitioner before use.

## ArthroMed™

**Supports Joint and Spine Health, Flexibility and Comfort\***

CLINICALLY STUDIED  
**CURCUMIN**  
AND **BOSWELLIA**

60 Capsules

**VEGAN NON-GMO** DIETARY SUPPLEMENT

**SUPPLEMENT FACTS**

Serving Size: 2 Capsules  
Servings Per Container: 30

Amount Per 2 Capsules (Veg):	%DV
Proprietary Complex	800 mg **
Containing Boswellia ( <i>Boswellia serrata</i> ) Gum Resin Extract (BOS-101) standardized to contain ≥ 70% total organic and boswellic acids with AKBA ≥ 10%, with ≤ 5% beta-boswellic acids, Curcumin ( <i>Curcuma longa</i> ) Rhizome Extract (BCM-95/Curcugreen™) enhanced with turmeric essential oil and standardized for curcuminoid complex (curcumin, demethoxycurcumin and bisdemethoxycurcumin), Devil's Claw ( <i>Harpagophytum procumbens</i> , <i>Harpagophytum zeyheri</i> ) Root Extract standardized to contain ≥ 20% harpagosides	

\*\*Daily Value (DV) not established.

**Other Ingredients:** hydroxypropyl methylcellulose (vegetable cellulose capsules), silica, vegetable source magnesium stearate, cellulose powder.

**No** sugar, salt, yeast, wheat, gluten, corn, soy, dairy products, artificial coloring, artificial flavoring, or artificial preservatives.

Manufactured by a cGMP compliant facility exclusively for:

## Supports healthy cartilage structure\*

## Optimizes comfort and mobility in articular joints and spine\*

**In a scientific study, devil's claw extract supports healthy hyaluronic acid synthesis in chondrocytes by up to 41%, which can enhance joint lubrication\***

**Clinically studied curcumin with turmeric essential oil is absorbed better than standard curcumin for amazing support\***

**ArthroMed** is a proprietary formula that effectively supports joint health and cartilage formation. It safely supports major signaling and biological pathways of the body that influence joint mobility and health.\*

**ArthroMed** combines clinically tested boswellia extract and enhanced absorption curcumin along with devil's claw.

The devil's claw used in this formula is unlike most other products. It is standardized at 20% harpagosides—a key component for the best benefits—where most other products are either unstandardized or only standardized for 2% harpagosides.

## Strong Ingredients that Make a Difference:

**Enhanced absorption curcumin** combines curcumin from turmeric (*Curcuma longa*) with turmeric essential oil (contains ar-turmerone) for excellent absorption. Comparison testing shows it has better absorption and enhanced blood retention time compared to standard curcumin extracts and/or turmeric.

**Clinically studied boswellia** (*Boswellia serrata*) is uniquely standardized for 10 times the AKBA (acetyl-11-keto-β-boswellic acid) of unstandardized boswellia and virtually no beta-boswellic acid.

**Devil's claw** (*Harpagophytum procumbens* and *zeyheri*) is native to southern Africa. Devil's Claw has been shown to support healthy hyaluronic acid synthesis in chondrocytes, which can enhance joint lubrication, by up to 41%.\*

These ingredients work together to support healthy cartilage structure, comfort, and flexibility.\*

## Frequently Asked Questions for ArthroMed™

---

**Q. Can ArthroMed be taken with Curaphen®?**

A. Yes, both ArthroMed and Curaphen can be used together. Curaphen is an excellent formula for providing immediate benefits, and ArthroMed can be used long-term for daily maintenance.

**Q. Why is the boswellia in ArthroMed screened to reduce beta-boswellic acid?**

A. While most boswellic acids are associated with positive benefits, beta-boswellic acid can interfere with the activity of AKBA.

**Q. How does the enhanced absorption curcumin in ArthroMed compare to other curcumin and turmeric products?**

A. The proper product comparison is curcumin to curcumin. However, since many companies are comparing their curcumin absorption to turmeric, we provide this information as a service to our customers.

- Plain curcumin compared to turmeric delivers up to 50 times the curcumin as the same amount of turmeric.
- This high-absorption curcumin delivers up to 10 times more curcumin into the bloodstream as the same amount of plain curcumin.
- Therefore, when compared gram per gram, this curcumin with turmeric essential oil delivers up to 500 times more curcumin than found in an equal amount of turmeric.

## What to Pair with ArthroMed™

---

<b>Curaphen®</b>	Provides a combination of clinically studied curcumin blended with turmeric essential oil, boswellia, DLPA, and nattokinase for pain relief.*†
------------------	--

---

†Occasional muscle pain due to exercise or overuse
