Discover a Breakthrough Formula: Acute Pain Relief**

For the best option in relieving sudden occasional pain, choosing between safe and effective doesn't have to be mutually exclusive. Acute Pain Relief by EuroMedica® proves it.*†

Three Ingredients, One Mission.

Acute Pain Relief features ingredients that are well known and highly regarded by practitioners and patients alike: BCM-95® curcumin and BOS-10® boswellia.*† They have been included in some of our most popular formulas to date and are the choice of researchers around the world. This formula combines them with a botanical oil that helps make it a supplement like no other.

1. BCM-95 Curcumin

The Leading Choice of Practitioners and Patients.

BCM-95 curcumin is the most clinically studied, enhanced absorption curcumin in the world. It currently has over 90 published studies to its credit, and 40 of those are human trials, including clinical work relating to pain relief, joint support, and overall mobility.*†

BCM-95 delivers a full complex of curcuminoids combined with

“

I was so amazed how this helped my pain!†

I recently developed some hip and leg pain. This was very upsetting to me since I love to hike. I tried Acute Pain Relief. I was so very amazed how this helped my pain.† I am back to hiking again. I am very happy with this product and so glad I tried it!

– Marsha M.**

”

“

Glad I found a product that works!

When I'm in need of pain relief, Acute Pain Relief is the product for me!†† As a gym rat and weekend warrior, I am glad I found a product that works.

– Brian M.**

”

turmeric essential oil for enhanced bioavailability of up to 7 times compared to standard extracts.*

2. BOS-10 Boswellia

Boswellia at its Best.

BOS-10 is no ordinary boswellia.

It delivers up to 10 times more acetyl-11-keto-B-boswellic acid (AKBA) than unstandardized forms. This key compound is especially helpful along pathways for pain relief that other herbs can't match.† Not surprisingly, BOS-10 boswellia has demonstrated its value in clinical studies combined with BCM-95 curcumin for comfort, mobility, and joint support.*

3. Black Sesame Seed Oil

A NEW, Patent-Pending, and Proven Delivery System

The black sesame seed oil in the formula helps deliver these ingredients that are emulsified in a new clinically-proven process that makes this product unlike any other available. Black sesame seed oil has been traditionally used in Ayurveda to aid in carrying and dispersing fat-soluble ingredients. It has also been studied for supporting a healthy inflammation response, making it even more valuable in this formula.*†

This new patent-pending process allows Acute Pain Relief to be delivered in small, easy-to-swallow liquid gels. Acute Pain Relief is an excellent choice for anyone who has difficulty swallowing pills, or who needs a product targeted specifically for times when sudden, acute pain occurs.*†

Discover the Difference of Acute Pain Relief**!

- **Specially formulated** to target sudden, acute pain.*†
- **A breakthrough in pain relief exclusively from EuroMedica®:** Acute Pain Relief provides an innovative option for practitioners and patients that delivers results.*†
- **Features BCM-95® curcumin and BOS-10® boswellia** emulsified in a NEW clinically proven, patent-pending delivery system utilizing black sesame seed oil.
- **Small, easy-to-swallow liquid gels:** Large tablets and capsules can be a challenge for some patients, and this formula has overcome that challenge. Nothing bulky here—just advanced pain relief that's the right size and highly effective.*†
