Based on best-selling German formula

Time-tested, safe, clinically studied ingredients

Non-drowsy, non-jittery

Non-habit forming

Great for adults & children

Respiratory Relief supports the upper respiratory system and occasional cough.[†] Respiratory Relief is a non-drowsy, non-jittery formula that provides soothing support with a synergistic combination of thyme and ivy extracts.*

Thyme (*Thymus vulgaris*): This well-known herb contains antioxidant compounds and promotes lung health through its ability to help relax smooth muscle tissues.*

Ivy (*Hedera helix*): This botanical supports healthy airways by enhancing cilia beat and frequency, which supports healthy lung function. Ivy is also an ingredient you can trust: multiple clinical trials have found ivy safe and effective for bronchial and lung support.*

Thyme and Ivy each have an approved monograph for lung and respiratory health from the German Commission E.

Together, these powerful botanicals provide safe and effective support for lung and respiratory function.*

Frequently Asked Questions for Respiratory Relief*

Q. Do I need to consider interactions when I use Respiratory Relief?*

- A. Ivy and thyme are extremely well tolerated, and we are not aware of any documented adverse interactions. However, we recommend discussing use of dietary supplements with your healthcare practitioner if you have specific concerns about interactions with your prescription medications.

Q. Should this be used in conjunction with BosPro™ or on its own?

- A. Respiratory Relief can be used on its own, or for more enhanced support, these products can be used together. The mode of activity for BosPro is synergistic with Respiratory Relief. BosPro features BOS-10® boswellia, which is standardized to a minimum of 10% AKBA, the most beneficial compound in the plant, and purified to remove the majority of beta boswellia acid (BBA) which can detract from health benefits. This unique dual standardization makes this form of boswellia up to 10 times or more powerful than standard boswellia, making it well-suited for lung and bronchial support.*

What to Pair with Respiratory Relief*

Elderberry Immune Complex*

Harnesses the power of sambucus along with key nutrients for intensive immune system support.*

Sinutol™ Extra Strength

Supports sinus cavities and soothes mucous membranes with a unique blend of eucalyptus, myrtle, plus the power of lemon extract.*
