

Silica-20™

Healthy Bone Density • Boost Collagen Production • Beautiful Hair, Skin, & Nails*

This superior, plant-based silica plays a key role in bone formation and the production of collagen, the protein used to form ligaments and tendons.* A proprietary extraction process produces silica with enhanced absorption.

- Bone mineralization: **boosts bone absorption of calcium up to 50%*†**
- Supports healthy bone structure and density*
- Boosts collagen production up to 50% for healthy skin, hair and nails*†

Recommendations: 1-2 tablets twice daily, or as recommended by your healthcare practitioner. If pregnant or nursing, consult a healthcare practitioner before use.

†In vitro evaluation on cultured human bone.

Silica-20™

• Healthy Bone Density
• Boost Collagen Production
• Beautiful Hair, Skin, and Nails*

CLINICALLY STUDIED INGREDIENTS

60 Tablets

VEGAN NON-GMO DIETARY SUPPLEMENT

SUPPLEMENT FACTS

Serving Size: 2 Tablets
Servings Per Container: 30

Amount Per 2 Tablets:	%DV
Vitamin D3 (cholecalciferol)	5 mcg (200 IU) 25%
Horsetail (Equisetum arvense) Aerial Extract standardized to 20 mg of silica, with naturally occurring flavonoids	800 mg **

**Daily Value (DV) not established.

Other Ingredients: tricalcium phosphate, magnesium hydroxide, silicon dioxide, sunflower oil, vegetable source magnesium stearate, coating (hydroxypropyl methylcellulose, vegetable source stearic acid, microcrystalline cellulose), mineral sea water extract, maltodextrin, arabic gum.

No sugar, salt, yeast, wheat, gluten, corn, soy, dairy products, artificial coloring, artificial flavoring, or artificial preservatives.

Product of France.

Manufactured by a cGMP compliant facility exclusively for: EuroMedica 955 Challenger Drive Green Bay, WI 54311 866-842-7256 euromedicausa.com

Bone mineralization: boosts bone absorption of calcium up to 50%*†

Supports healthy bone structure and density*

Boosts collagen production up to 50% for healthy skin, hair and nails*†

Healthy bones need silica, but they need a form that is best utilized by the body. **Silica-20** is the right choice. It provides silica gently extracted from horsetail (*Equisetum arvense*) blended with trace minerals from the sea and healthy lipids to enhance absorption.*

For calcium utilization, **Silica-20** can make a big difference—it boosts calcium absorption into the bone up to 50%!† Plus, it supports healthy bone density in two ways: it helps your body maintain the collagen framework for healthy bones, and it helps support a healthy balance of minerals in bones. The result is strength from within for your bones and teeth. Because of its positive benefits for collagen, **Silica-20** also supports healthy hair, skin, and nails.*

Silica-20 uses a proprietary extraction method. This method filters out harsh, unnecessary compounds while preserving the silica and beneficial flavonoids.

Frequently Asked Questions for Silica-20™

Q. Can't I get silica from food?

A. Certainly, there are food sources, but very little of that silica is absorbed during digestion. In fact, you'd probably have to eat 50 bananas just to get about 8 mg of absorbed silica. So a supplemental source is a must. In fact, in Europe, silica is more popular than calcium for bone support. Considering that silica does even more than support bone density and strength, it is a sensible supplemental choice for joints, hair, skin, and nails too.*

Q. How does Silica-20 help keep bones healthy?

A. **Silica-20** supports the natural growth processes of bones by helping them retain calcium longer-by an average of 50 percent or more.† Additionally, a randomized, double-blind, placebo-controlled study of 65 women over the span of 12 months revealed that **Silica-20** supported bone health and strength.*

Q. Is the use of Silica-20 supported by research?

A. Yes. A 12 month, randomized, double-blind, placebo-controlled study involving 65 women revealed that Silica-20 supported bone health and strength.*

Another **Silica-20** study with 150 individuals showed support for healthy bones. Doctors reported that in 80 percent of participants, significant indicators of bone health support were evident after 15 days of use, and further gains were measurable after 6 weeks of use.*

What to Pair with Silica-20™

Strontium	Provides a trusted source of the mineral that is essential for bone health.*
